

Comark Pocketherm Thermometers

The Comark P125 and P250 Pocketherm is stylish, convenient and makes temperature checking easier than ever before.

It's Neat - And fully self-contained with a built-in probe

It's Fast - And accurate with a choice of thermistor or type T sensor

It's Compact - To fit in any pocket or bag

It's Pocketherm - The pocket sized food thermometer from Comark

- **Probe swings open** to switch on instrument
- **Probe** can be angled to suit usage
- **Readings** clearly shown on the large LCD display
- **Thermistor accuracy** meets all food hygiene regulations
- **Type T measurement range** covers all needs from frozen foods to hot plates, fats and oils
- **LED's for error free** indication of temperature zones
- **Choice of thermistor** or type T thermocouple models
- **Choice of models** with either °C or °F display
- **Auto switch** off for even longer battery life

LED's For Instant Temperature Indication

Pocketherm features three LED's, for instant indication of food temperature zones. Yellow for frozen, green for chilled or red for cooked - it couldn't be simpler, it prevents errors and it's great for HACCP procedures too. As a bonus the LED's flash, both attracting attention and saving battery power.

 **COMARK**
A Fluke Company

Comark is the leading manufacturer and supplier of a wide range of electronic measurement instruments for temperature, humidity, pressure and pH.

No Snags with Pocketherm

Aptly named, Pocketherm fits in a pocket, or a bag, and the probe clips securely to the side of the thermometer, out of harm's way. Pocketherm switches on when the probe is swung away from the instrument case and switches off when it is folded back.

No buttons or adjustments required.

The probe can be cleaned with a Comark bacterial wipe between each temperature check.

WARRANTY

All Comark instruments have a minimum one year warranty unless otherwise stated. The warranty period for temperature probes is for six months and all other probes and electrodes are unwarranted because the conditions of use are beyond our control. The Comark warranty covers manufacturing defects and component failures on all products returned to Comark premises and applies worldwide. The warranty does not affect your statutory rights. In line with our policy of continuous development we reserve the right to alter any product specifications without notice. All products are covered by our Quality Management System which is compliant with BS EN ISO 9001:2008 for the design, manufacture, supply, service, repair and recalibration of electronic measuring instruments and equipment.

Temperature Measurement

	P125	P250
Sensor Type	Thermistor	Type T Thermocouple
Measurement Range	P125 -40°C to +125°C	P250 -50°C to +250°C P250F -58°F to +482°F
Scales	P125 °C	P250 °C P250F °F
Resolution	0.1°	0.1°
Accuracy	at +23°C/+73°F (system) P125 ±0.5°C, -20°C to +70°C	from 0°C/+32°F to +40°C/+104°F (system) P250 ±0.3% ±0.75°C, below +125°C ±0.7% 0.25°C, +125°C and above P250F ±0.3% ±1.35°F, below +257°F to 0.7% ±0.45°F, +257°F and above
Battery Life	400 hours minimum (continuous)	100 hours minimum (continuous)
Both Instruments		
Operating Range Temperature Humidity	-20°C/-4°F to +50°C/122°F 10 to 90% non condensing	-20°C/-4°F to +50°C/122°F 10 to 90% non condensing
LED Indication (Flashing) Yellow Green Red	below -18°C/0°F 0°C/+32°F to +5°C/+41°F above +70°C/+158°F	below -18°C/0°F 0°C/+32°F to +5°C/+41°F above +70°C/+158°F
Auto Switch Off	After 5 minutes	After 5 minutes
Battery Type	PP3 9V	PP3 9V
Dimensions Case Probe	L 170mm (probe retracted) x W 52mm x D 24mm L 110mm	L 170mm (probe retracted) x W 52mm x D 24mm L 110mm
Weight	140gms with battery	140gms with battery

Order Codes

P125 Pocketherm with thermistor sensor, °C
P250 Pocketherm with type T thermocouple sensor, °C
P250F Pocketherm with type T thermocouples sensor,

PW70T Comark probe wipes, tub of 70
PW200 Comark probe wipes, tub of 200
